

August 2016

It is only through the kindness of hundreds of donors every year that Saint Paul's can offer an infant through eighth grade education of the highest quality to students in the Clearwater area. Like all strong non-profit independent schools and colleges, Saint Paul's depends upon the generosity of its community to provide talented teachers, small classes, signature programs and exceptional offerings in everything from reading and math to the arts and athletics.

We thank all who support our work and our vision, who understand the value of a Saint Paul's education and appreciate the credibility behind the academic experience our students will carry with them throughout their lives. There is no greater gift we can give our students and there is no better network of alumni families to entrust them to once they graduate.

With gratitude

A handwritten signature in black ink, appearing to read 'Samantha Campbell'.
